

BLOOMFIELD

Features

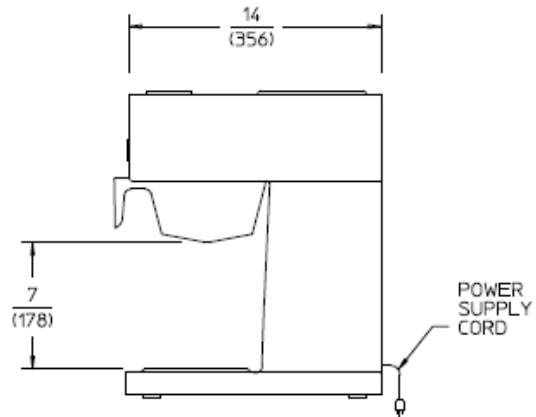

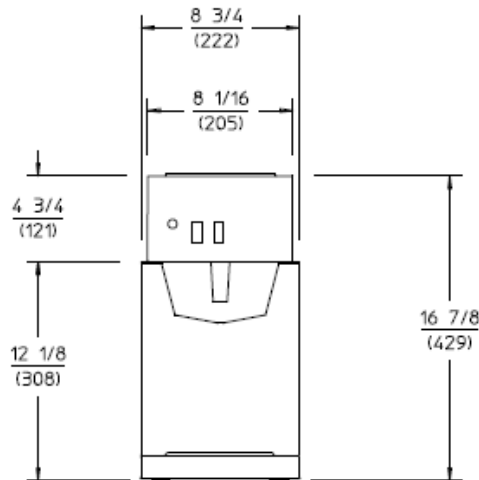

- Like all Bloomfield products, this proven, efficient brewing system is designed to take advantage of the finest electrical components and has the lowest service cost in the industry for this type of brewer. Our exclusive water delivery system spreads a precise amount of water over the coffee grounds for complete saturation and much better taste.
- Ready-to-Brew light indicates the proper water temperature to help eliminate the guesswork in brewing.
- Two warming stations with porcelain enameled warmer plates position decanters securely.
- Premium quality thermostat has a full-length stainless steel sensing bulb that recognizes water temperature accurately and cycles less frequently.
